

REMARKS

By the above actions, claims 8 and 12 have been further amended. These amendments merely remove the words "of the latch" which were inappropriate given the recitation "with regard to the respective swivelling axis" and the prior recitation of more than one axis. This change should not affect the allowability of these claims.

It is respectfully submitted that the all of the claims are now allowable for the reasons set forth in applicant's February response, and that the application is in condition for allowance. A prompt notice to that effect is respectfully requested. However, should further issues require resolution prior to allowance, the Examiner is requested to telephone the undersigned in order that the further prosecution of this application can thereby be advanced.

Respectfully submitted,
